PUBLIC CLOUD TRANSFORMATION SERVICES

DIGITAL Power.
Cloud accelerating business

WHAT IS COMPUTACENTER PUBLIC CLOUD FOR ENTERPRISE?

Computacenter Public Cloud Services offers customers a way to optimise their public cloud adoption and implement its use in a structured, governed way across their entire enterprise. Our services are made up of 4 main solutions, supported by our unique Cloud Adoption Framework. As part of these solutions, we supply both professional consulting services and technology sourcing.

PLAN	**CLOUD PLATFORM STRATEGY**	We help our customers develop a bespoke modern platform strategy for public cloud, that is ready for the required enterprise scale, based on industry and Computacenter best practices.
APPLY	**CLOUD ENTERPRISE FOUNDATIONS**	Creating an enterprise-ready public cloud foundation, based on our 'best-architected' framework, aligned to our customers requirements for security, compliance, operational efficiency and scale.
APPLY	**CLOUD OPTIMISATION**	Helping our customers integrate and optimise their public cloud environments to realise the benefits, be commercially efficient and both technically and operationally aligned with best practice
SCALE	**APPLICATION MIGRATION**	Scale public cloud adoption efficiently using our migration factory, a completely governed process to transform workloads across the whole business.

WHAT ARE OUR CORE SERVICES?

The core services that we provide in public cloud to customers are as follows:

- Marketplace sourcing
- Strategy and Roadmap
- Commercial Guidance
- Cloud Center of Excellence
- Landing Zones
- Well Architected Reviews

WHAT IS OUR CLOUD ADOPTION FRAMEWORK

Our Adoption Framework is a unique public cloud methodology, designed to provide a structured but adaptive approach to adopting an enterprise cloud IT services model, whether that's building and migrating to private, public or multi-cloud platforms.

The framework provides our customers with key tactical and strategic activities needed to spark large scale adoption, maintain the velocity of their cloud migration, and ensure the longevity of their operations. It's flexible, modular approach allows businesses to enter at a point relevant to their needs and stage of cloud adoption, conduct only those activities needed to move them forward, and build a programme of execution tailored to their IT requirements.

WHY COMPUTACENTER?

At Computacenter, we know enterprise, we know cloud and we know what it takes to get the public cloud fully in-line with an enterprise's digital strategy to keep their business accelerating in the long term:

- Enterprise & Public Sector focused
- Performance-based outcomes
- Delivery at scale
- Vendor Independence
- Partner ecosystem
- Global Reach
