OUR PARTNERSHIP

Computacenter and Dell EMC have been helping organisations get the most from their data for more than 30 years. From the core to the edge, we maximise data availability and optimise infrastructure capacity to deliver greater business value.

By combining our services with Dell EMC's Innovative solutions, we help customers make digital work within their business by enabling users.

OUR SOLUTIONS

Together, Computacenter and Dell EMC are setting the digital transformation agenda with solutions for software defined; protection; hybrid cloud and flash storage.
