

Computacenter positioned as Networking Leader in Germany by ISG

Computacenter recommended for technology, engineering and transformation services

KERPEN, 22 SEPTEMBER 2020: The Information Services Group (ISG) has positioned Computacenter in the Leader Quadrant for three categories in its study "ISG Provider Lens Network - Software Defined Solutions and Service Partners, Germany 2020". Computacenter proved themselves in: SDN Transformation Services (Consulting & Implementation), SD-WAN Equipment and Service Suppliers and Network Technologies Suppliers (Core to Mobile). This covers the consulting and planning for transformation projects as well as their implementation.

The market research and consulting company sees Computacenter as a "valued and trustworthy provider of high-quality technology, engineering and transformation services in Germany" with many compelling references. The experts also emphasized the company's customer-centred business approach and the focus on "offering long-term consulting services". Computacenter offers "SDN as a strategic part of its digital transformation portfolio, led by a very capable team of industry and technology consulting experts". Computacenter also scored highly with its "significant implementation experience".

High quality and credibility

In SDN Transformation, ISG confirms that Computacenter has "credible network engineering, testing and implementation capabilities" combined with reliable customer-centric professional services. Additionally, the market researchers praise Computacenter in Network Technologies for its "large, experienced resource pool". The IT services provider offers vendor-neutral technology selection programs and high-quality engineering services for digital and network transformation. Computacenter can provide dedicated networking testing and proof of concept verification environments for customers in Germany, to allow the evaluation of potential solutions. In the SD-WAN Equipment and Services category, the experts conclude that Computacenter has "exceptional SD networking products and knowledge and the ability to deliver standard or customized solutions in Germany".

"We are very pleased with this positioning", says Dr. Peter Klostermaier, Unit Director for Digital Connect at Computacenter. "The fact that the knowledge and skills of our team are being highlighted is a credit to our employees." Frank Witte, Group Strategy Director Networking, adds: "ISG confirms that SDN continues to be a strategic issue where customers can rely on us – because we support them in their transformation and implement the right solution for them".

- End -
