

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

Agile Delivery Manager

We are looking for an ambitious Agile Delivery Manager who focuses on making things happen, thus ensuring their clients and teams have everything they need to succeed.

Joining Computacenter Romania management team, you will drive the timely delivery of software projects through effective team coordination, stakeholder management, and outstanding leadership.

Responsibilities

- Oversee **activities of the delivery teams** and provide direction and guidance as needed
- Perform **resource allocations** according to delivery requirements
- Oversee implementation and ensure all elements are considered and factored into the **delivery plan** to meet the client's expectation
- Oversee the **team's happiness**, and do everything in their power to ensure there is a good atmosphere and that everyone is thriving
- Make critical business decisions to **meet customer expectations** and serve as the primary contact for customer inquiries and concerns
- **Challenge existing processes** and work with people inside and outside the team to update them if they are slowing the team down or not adding the most value for everyone
- Make sure projects are appropriately resourced in terms of people, skills and expertise thus collaborating with recruitment teams to **hire the right people**
- **Manage all project reporting**, providing transparent updates to client stakeholders and senior management through project dashboards, status reports and financial tracking reports
- Collaborate with senior management, human resources, and multiple departments, to identify areas for improvement, and come up with a plan to **ensure the performance gaps are addressed and closely monitored**

Requirements

- Previous experience in roles that involve project management / delivery management in the software area
- Proven record in delivering high-quality solutions that meet the clients' needs
- Previous experience as a hiring manager, strong negotiation, and presentation skills

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

- Skilled in building trust, managing team dynamics, and motivating people
- Extensive stakeholder management experience
- Excellent communication skills to address different audiences across multiple departments and stakeholders, with an overarching goal in mind of leading their teams to success
- Flexibility in adapting to unexpected changes and knowing how to embrace those changes: different teams will have different needs
- Excellent written and verbal communication skills in English, German is a big plus

About us

Computacenter is a leading independent provider of IT infrastructure services, with about 16,000 employees worldwide and a global revenue of £5.05 billion. We work

at the heart of digitisation, advising organisations on IT strategy, implementing the most appropriate technology and managing our customers' infrastructures.

We offer a friendly, open working environment without too much fuss about hierarchy. We are looking for professionals with diverse competencies, personalities and strengths who want to live our shared value of teamwork and performance.

Interested in joining a company with a strong sense of community?

We're growing. We're hiring. We encourage. We empower. We support.
