

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

Front-end Developer (with Angular)

We are looking for an ambitious and self-driven Front-end Developer to join our team. As a Front-end Developer, you will be responsible for implementing visual elements that users see and interact within a web application.

Responsibilities

- Understand business and functional requirements
- Design and implementation of technical solutions in enterprise projects
- Analysis and fix of reported issues
- Cooperate with skilled developers, managers, QA's, and designers to ship new components and features
- Propose technical improvements and explore new technologies

Requirements

We are looking for candidates who have a deep interest in learning new technologies and techniques. So while the exact tech stack you know is not so important, you should have some experience in the following areas in your current or previous job:

- Strong JavaScript knowledge
- Experience with Front-End technologies (Angular, TypeScript, HTML, CSS)
- Good knowledge of OOP and FP principles
- Previous experience with other JavaScript frameworks would be a plus (React, Vue.js, etc)
- Soft Skills: Reliable, responsibly, communicative, team player, curiosity, visionary
- Very good English skills, German is a big plus
