Java Software Engineer

We are looking for a Java Software Engineer to help us build functional products and applications.
Java Software Engineer responsibilities include defining software requirements, writing clean and efficient code for various applications and running tests to improve system functionality. If you have hands-on experience with programming in Java and are interested in agile methodologies, we'd like to meet you.

Responsibilities

- Design, build, and maintain efficient, reusable, and reliable Java code
- Identify bottlenecks and bugs, and devise solutions to these problems
- Help maintain code quality, organization, and automatization
- Ensure the best possible performance, quality, and responsiveness of the applications
- We're always evaluating new technologies and innovations, so you will be able to contribute with your past experience and interests to the team.

Requirements

We are looking for candidates who have a deep interest in learning new technologies and techniques. So while the exact tech stack you know is not so important, you should have some experience in the following areas in your current or previous job:

- Proficient in Java, with a good knowledge of its ecosystems including frameworks such as Spring and Service Oriented Architecture
- Solid understanding of object-oriented programming
- Familiar with various design and architectural patterns
- Skill for writing reusable Java libraries
- Familiar with DevOps tools and experience in CI/CD software
- Very good English skills, German is a big plus

About us

Computacenter is a leading independent provider of IT infrastructure services, with about 16,000 employees worldwide and a global revenue of £5.05 billion. We work

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

at the heart of digitisation, advising organisations on IT strategy, implementing the most appropriate technology and managing our customers' infrastructures.

We offer a friendly, open working environment without too much fuss about hierarchy. We are looking for professionals with diverse competencies, personalities and strengths who want to live our shared value of teamwork and performance.

Interested in joining a company with a strong sense of community?

We're growing. We're hiring. We encourage. We empower. We support. #winningtogether
