

ARE YOU OUR NEW COLLEAGUE?

Computacenter is Europe's leading independent provider of IT infrastructure services, enabling users and their business. We advise organisations on IT strategy, implement the most appropriate technology, optimise its performance, and manage our customers' infrastructures. In doing this we help CIOs and IT departments in enterprise and corporate organisations maximise productivity and the business value of IT for internal and external users.

Rooted in core European countries Computacenter combines global reach with local expertise. We operate Infrastructure Operations Centers and Group Service Desks across Europe, South Africa and Asia from which our employees provide user support in 18 languages. Customers with global requirements are served through an extensive international partner network, which mirrors the requirements of our European-headquartered client base.

Computacenter Belgium is looking for a

Junior Finance Manager / Business Analyst

ROLE

A rare and exciting opportunity has arisen for an experienced Finance professional to join the Computacenter team as a Junior Finance Manager – Business Analyst. You will play a pivotal role in supporting the Finance function and reporting to the Head of Finance Belgium. You will have exposure to a broad range of tasks and you will work with different lines of business. You will be a self-starter and have the confidence to integrate with all departments from the outset. It will be a steep learning curve, but a great opportunity to develop professionally and grow as the business grows.

REQUIREMENTS

- In charge of delivering the Group's Commercial Finance service as defined below into the Belgian business, with focus on the Country Unit, and being the Single Point of contact for Business Unit Managers
- Provide timely, accurate and reliable financial information to the business, including flash information, reporting packs, and writing recommendation for business managers
- Deliver robust analysis of customer and service line cost and profitability
- Define accruals and financial positions in Belgium in accordance with Group policies
- Review balance sheet reconciliations produced by the Finance Operations team
- Manage a risk and opportunity register
- Build forecasts with business management in line with Group process
- Build annual Business plan and target in line with Group process
- Root cause / variance analysis on historical results
- Provide insight, trends and recommendations to enable the business to improve future business performance
- Help to keep the business on track
- Help the business understand cost drivers in the business and relative performance of different departments
- Provide supporting financial analysis for the business areas supported
- Provide financial & commercial input into material customer bids, ensuring the business is not exposed to risk that is not covered by margin
- Involvement in ad hoc projects
- Share best practices with peers in other group countries

For internal applications, please inform your direct management that you are applying for a new challenge.

If you meet the above criteria and you are looking for a new challenge, we welcome you to send us a detailed resume and motivation letter to CCB.RECRUITMENT@COMPUTACENTER.COM
