

ARE YOU OUR NEW COLLEAGUE?

Computacenter is Europe's leading independent provider of IT infrastructure services, enabling users and their business. We advise organisations on IT strategy, implement the most appropriate technology, optimise its performance, and manage our customers' infrastructures. In doing this we help CIOs and IT departments in enterprise and corporate organisations maximise productivity and the business value of IT for internal and external users.

Rooted in core European countries Computacenter combines global reach with local expertise. We operate Infrastructure Operations Centers and Group Service Desks across Europe, South Africa and Asia from which our employees provide user support in 18 languages. Customers with global requirements are served through an extensive international partner network, which mirrors the requirements of our European-headquartered client base.
