

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

DevOps Engineer

We are looking for skilled engineers to join a growing number of engineering teams and provide them with the DevOps capabilities to help build and operate their applications in the cloud.

Responsibilities

- Building and enhancing CI pipelines and environments
- Docker container orchestration using Kubernetes
- Working directly with Cloud infrastructure - primarily use AWS
- We're always evaluating new technologies and innovations, so you will be able to contribute your past experience and interests to the team.

Requirements

We are looking for candidates who have a deep interest in learning new technologies and techniques. So while the exact tech stack you know is not so important, you should have some experience in the following areas in your current or previous job:

- Comfortable working within Linux/Windows environment
- Working with virtualized and/or containerized technologies
- Automating repetitive tasks using tools or scripts
- Working with CI tools and building environments
- Getting your hands dirty with any cloud provider
- Working with monitoring/logging tools or frameworks
- Very good English skills, German is a big plus

About us

Computacenter is a leading independent provider of IT infrastructure services, with about 16,000 employees worldwide and a global revenue of £5.05 billion. We work at the heart of digitisation, advising organisations on IT strategy, implementing the most appropriate technology and managing our customers' infrastructures.

WINNING TOGETHER

Our business is about technology.
But first of all, it's about people.

We offer a friendly, open working environment without too much fuss about hierarchy. We are looking for professionals with diverse competencies, personalities and strengths who want to live our shared value of teamwork and performance.

Interested in joining a company with a strong sense of community?

We're growing. We're hiring. We encourage. We empower. We support.
